

Diamond Approach® Book Study
Spacecruiser Inquiry
Winter '21--Begins March 2

We will present a **study/inquiry group** based upon the teachings of A. H. Almaas found in the book “**Spacecruiser Inquiry**”. This is a complex book and the sessions are designed to practice with “bite-sized” selections to help connect and integrate the teachings.

Each session will present a theme to **develop the art and skill of spiritual inquiry**. Among the topics explored are: **Goals and comparisons**, inner and outer guidance, **love of the truth**, inner perception, **attuned guidance** and finding basic knowledge. In all explorations we seek to see for ourselves personally and orient toward the **discovery of our authentic selves**.

Each meeting will have a teaching, a guided personal inquiry and time for questions, based upon “Spacecruiser Inquiry” by A. H. Almaas. The theme of the book is learning to connect to our inner wisdom and guidance.

Sessions will be taught by Anne Hoff, Sue Moen and Lou Weir, certified Diamond Approach teachers. They live in Seattle, Santa Cruz and Ann Arbor, respectively.
